> Re: WT Docket No. 11-18 File No. 0004566825 RM-11592

Dear Madam Secretary:

Pursuant to Section 1.1206 of the Commission's rules, 47 C.F.R., this correspondence constitutes notice of a permissible ex parte presentation in the captioned proceeding.

The meeting transpired on March 8, 2012 by telephone. The participants were Mr. Louis Peraertz of Commissioner Clyburn's office and the undersigned, representing King Street Wireless, L.P.

During the meeting, the following arguments were presented:

- 1. While the primary focus of this proceeding should be on interoperability within the lower 700 MHz band, and action on this item should not be held up pending resolution of interoperability for both the upper and lower basis, the issue of both upper and lower band operability should be presented for comment and, if necessary, resolved pursuant to a further notice of rulemaking.
- 2. A number of engineers who have looked into the issue believe that lower band interoperability can be achieved without the need for additional duplexers.

Please direct any questions to the undersigned counsel for King Street Wireless, L.P.

Very truly yours,

/s/ Thomas Gutierrez Counsel for King Street Wireless, L.P.

cc: Louis Peraertz
